1. BACKGROUND INFORMATION

Support to civil society is one of the key priorities of the EEA Financial Mechanism (FM) 2009-2014, funded by Iceland, Liechtenstein and Norway. This commitment reflects recognition of the role of Non-Governmental Organisations (NGOs) as a fundamental building block in the development of fair, democratic and sustainable societies in Europe.

A specific Programme area within the EEA FM has been earmarked to provide flexible and accessible funding to eligible NGOs, with the aim to foster an enabling environment for the sector, strengthen its capacity and enhance its contribution to social justice, democracy and sustainable development.

The Financial Mechanism Office (FMO), which administratively forms part of the European Free Trade Association (EFTA) and acts as Secretariat for the EEA FM, has been entrusted with the operation of the NGO programme in Slovenia. FMO has selected Regional environmental center for Central and Eastern Europe (REC) and Center for information service, Co-operation and Development of NGOs (CNVOS) as fund operators to develop and manage the NGO programme in Slovenia on its behalf.

2. PROGRAMME OBJECTIVE

The overall objective of the NGO Programme in Slovenia is to strengthen civil society development and enhance contribution to social justice, democracy and sustainable development. Proposed project proposals need to be in line with priority areas, activities and outcomes described below.

The Programme aims at:

- Supporting deficit areas (areas and activities that are underfunded in comparison to other fields of activity);
- Supporting organizational development of NGOs and ideas with the long-term perspective;
- Addressing current concrete problems in the society (e.g. youth unemployment, decrease in participatory democracy, migrant workers, increasing poverty, etc.) .

Therefore, careful consideration will be given to the relevance of the projects, problem identification, analysis of existing practices and proposed solutions. Projects that show measurable results in achieving social justice, democracy and sustainable development and have significant impact on the target groups will be encouraged. Furthermore, projects that built inter-sectoral partnerships between NGOs, public institutions and business sector in community development will be encouraged as well.

3. AREAS OF SUPPORT AND DIVISION OF RESOURCES

There is 340.184 € available within this public call. Funds are divided between six priority areas. Project proposals need to address at least one of the priority areas. In the case of cross-cutting project proposals (projects that target more than one priority area), primary priority area needs to be selected.

Priority areas and provisional division of resources:

- Democracy (tentatively 51.028 EUR available under this public call) is tackling issues such as good governance and transparency, participatory democracy, anti-corruption, rule of law, etc. Projects under this priority call could, for example, tackle public participation and openness of the decision-making process on the local level, transparency of local municipalities, etc.
- Human rights (tentatively 51.028 EUR available under this public call), is addressing especially the rights of minorities and marginalized groups, such as homosexuals, Roma, etc., rights of migrants, antidiscrimination, gender equality, etc.
- Social equality (tentatively 68.037 EUR available under this public call) is addressing poverty, social inclusion and activation of marginalized groups (activities that support beneficiaries in finding new sources of living, building their skills, etc.).
- Children and youth (tentatively 68.037 EUR available under this public call) is tackling issues, such as youth unemployment, informal education, prevention of youth crime with the aim to support the children and youth in realizing their potential.
- Protection of environment (tentatively 68.037 EUR available under this public call). Issues addressed: biodiversity, climate change, renewable sources of energy and efficient use of energy, sustainable mobility, local food production, etc.
- Provision of welfare and social rights (tentatively 34.018 EUR available under this public call): social innovations (development of new services, broadening of the existing services to new beneficiaries). Project proposals should not include services that are already being provided by the public institutions or already financed by the public funds.

Available amounts per each priority area are tentative. The selection committee may decide to reallocate remaining amounts to support additional project(s) on the basis of the quality evaluation (the projects receiving the highest score).

Eligibility check:

Prior to the quality and financial evaluation of the project proposals, the eligibility of the applicants will be examined based on the copy of the statute and applicants' balance sheet for 2013.

Administrative compliance criteria:

Prior to the quality and financial evaluation, project proposals will be examined according to the following administrative compliance criteria:

- proposal is submitted in one original and in electronic format,
- the application forms are filled in completely,
- priority area of the application is clearly marked,
- application lot is clearly marked,

- ***own contribution covers at least 10% of total eligible costs,**
- ***administrative costs (overheads) do not exceed 10%.**

At the stage of administrative compliance assessment, the applicant will have the possibility to supplement the missing documents in 5 days after the receipt of the request. This pertains to obvious clerical and mathematical errors in the application and/or in annexes, the lack of the electronic version of the application and/or annexes or the lack of annexes.

***If the applicant does not meet the criteria marked with *, application will be rejected and will not enter into further evaluation process.**

After the administrative and eligibility check all applicants will be notified about their eligibility. There will be 10 days available for appeal against the eligibility decision. Selection committee will decide about the appeals.

Quality evaluation:

Only projects that meet all administrative compliance criteria will be subject to quality and financial evaluation. External experts will evaluate all eligible project proposals according to the criteria, listed in the »Evaluation Criteria Table«. There are 10 independent external evaluators/experts. The evaluation of the each project proposal will be carried out by two evaluators. If the difference between the scores given by the two experts will be higher than 30 %, a third evaluator will score the project independently. In such cases the average score of the two closest scores shall be used for ranking the project.

If after careful consideration of the project proposal evaluators' opinion will be that the primary priority area of the project proposal is not the one, stated in the application, evaluators can propose to the Fund operator that the project proposal would be considered under different priority area. The final decision is on the selection committee, which has the power to change the priority area also without proposal made by the evaluators or the fund operator.

Based on received scoring, the ranking list of applications will be prepared. Proposed ranking list will be examined by the Selection Committee, who will take the decision, which project proposals are recommended to be supported. The selection committee has 7 members: 2 representatives of the Fund operator, 2 NGO representatives, 2 representatives of the municipalities or its umbrella organisations and 1 representative of the Chamber of Craft and Small Business of Slovenia. Representatives of EEA grants Slovenia national focal point, FMO and Norwegian embassy will be invited to the selection committee meetings as observers.
